Warrant

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of
Dummer qualified to vote in District affairs:

You are hereby notified to meet at the Willis School house in said District on the 11th day of March, 1958 at nine o'clock in the forenoon to act upon the following subjects:

1. To choose a moderator for the coming year.
2. To choose a clerk for the ensuing year.
3. To choose a member of the school board for the ensuing three years.
4. To choose a treasurer for the ensuing year.
5. To determine and appoint the salaries of the school board and truant officer, and fix the compensation of any other officers or agents of the District.
6. To hear the reports of agents, auditors, committees, or officers heretofore chosen, pass any vote relating thereto.
7. To choose agents, auditors and committees in relation to any subject embraced in this warrant.
8. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for payment of statutory obligations of the District, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
9. To transact any other business that may legally come before this meeting.

Given under our hands at said Dummer, this 17th day of February, 1958.

RACHEL E. HOLT, Chairman
MILDRED BACON

* The starred items are required by law to be raised as determined by proper authorities. The District determines the salaries of the District officers. The Supervisory Union Board decides the local share of the Superintendent's salary

and other Union expenses. The share paid by the several Districts toward the Superintendent's salary for 1957-58 is as follows: Dummer, \$157.50; Gorham, \$3,105.00; Jefferson, \$405.00; Milan, \$472.50; Randolph, \$157.50; Shelburne, \$202.50. The State Treasurer reports the amount of per capita tax, while the Teachers' Retirement Board assesses the amount for teachers' retirement and the State Employees' Retirement Association assesses the amount for the Superintendent's retirement and other District employees that belong to the system. In those towns that are under Social Security, the amount to be paid by the District is established by law.

Estimated Income: State Treasurer for Noon Lunch Program, \$300.00. (This is an offset item under Special Activities and Special Funds, where the estimated expenditure is \$300.00. It has no effect whatever on the amount to be raised by taxation.) Any balance remaining on June 30, 1958 will be deducted from the assessment.

Report of Superintendent

To the School Board and the Citizens of the Dummer School District:

Foreword

The Russian advance in the field of technology has awakened the average American more than any one thing during the past decade. When the announcement was made that Russia had successfully launched an earth satellite, the cry arose, what has happened to the United States, how did Russia advance so rapidly while our country was falling behind? Of course the blame has to be placed on the shoulders of someone, and aside from the leaders of our government, education has taken the brunt of the criticism.

In our country we have the cherished dream that everyone is entitled to equal opportunity and chance. American public education was fostered on the belief that an enlightened citizenry was a necessity if we were to successfully have a democratic form of government. That thesis implied that all should be entitled to as much education as possible. To take care of the large enrollments, the American school tried to adjust for the differences among children, the vocational and educational plans of the students and the interests of various groups as to what they felt the schools should accomplish.

It probably is true that some school systems have introduced courses that have not tested the true mental capacities of the students. This is not true in all schools. I agree that more can and probably should be done in our schools to improve and increase the teaching of science and mathematics, but we must not lose the proper perspective of the entire curriculum. There still is, and always will be, strong need for courses in English, in the social studies, the languages, and the arts. I don't believe anyone desires that this country should become a nation of technologists alone. We must keep sight of the fact that all students cannot be scientists or mathematicians and the schools must have offerings for these people, so they too can prepare for adult living. This fact necessitates courses in the curriculum for commercial training, home economics, manual training, languages, etc.

The schools will meet the challenge along with our nation. Stronger emphasis will be focused on the sciences and more students will graduate from such courses. Again, how-

ever, I would like to leave this thought with you—let's keep a proper perspective of the entire curriculum and not go overboard on a single area of what the schools should offer.

Teachers

We did not have a change in the two teachers this past year, for which the town is very fortunate. Moderate raises were given both teachers last year and are planned again this year. Dummer, having two one-room schools, will be hard pressed for replacements if either of our present teachers leaves us. The supply of teachers from the ranks of married women is decreasing each year, and beginning teachers, as a group, do not desire to teach in rural areas, especially in one-room buildings. Add to this the fact that graduates from our teachers colleges do not wish to teach in the "North Country" one can see why Dummer will find it difficult to get as well-qualified teachers in the future as we have now. The beginning salary that graduates from our teacher training schools will get this year is expected to be about \$3,300.-00. I feel that our present teachers should get a comparable amount.

Enrollment and Attendance

The percentage of attendance in school this past year improved over the previous year. However, our record for tardiness was very poor due to the members of one family. I'm sure that we can expect improvement this current year.

Buildings and Equipment

I feel that the School Board and District is to be commended on the physical condition of the two buildings. They are in good repair and are attractively painted. The interior of the Willis School was painted this past summer and some additional painting was done in the West Dummer School. An electric hot water tank was installed in the West Dummer School which helps the cook for hot lunch and makes it much better for the students when they are able to have hot water to wash their hands.

Film strip projectors and screens were added to the two schools which help in the use of visual aids. Small liquid duplicators were purchased to aid the teachers in running off seat work, etc. The conditions of maps and encyclopedias in both schools is excellent.

Tuition

There are six pupils attending Berlin High School this year and the District is liable for tuition on two children in

Milan. The rate of tuition in Berlin will be \$350.00 again for next year.

There is one disturbing fact that should be given some careful thought by each one. The number of pupils who go to high school from Dummer and drop out before finishing is too great. It's a generally accepted fact today that one needs a high school education for almost any type of work. I don't feel that the pupil gets out of high school what he should, or the town gets proper return on the money paid for tuition, if a pupil goes for a short time and decides to leave school. Parents should be more insistent that their children go and complete high school.

Budget

The School Board's total budget for 1958-59 is \$19,851.02 as compared to \$18,691.89 for this past year. This represents an increase of approximately \$1,150.00 and the increase is caused primarily for added costs in transportation services, tuition costs, and for teachers' raises. These are three items of expense that the District can do little about, especially if we wish to keep our teachers and pay them a just salary. Your School Board and I have worked very hard to keep the budget as low as possible and still maintain the type of schools we wish to have.

Warrant

There are no special articles for consideration this year in the school warrant. However, this should not mean that the voters can take less interest in their schools as the annual meeting is about the only time when questions can be asked about the schools.
